

**Liberty Ag
Solutions**

Streamline your chemical mixing with Mixmate® by Praxidyn

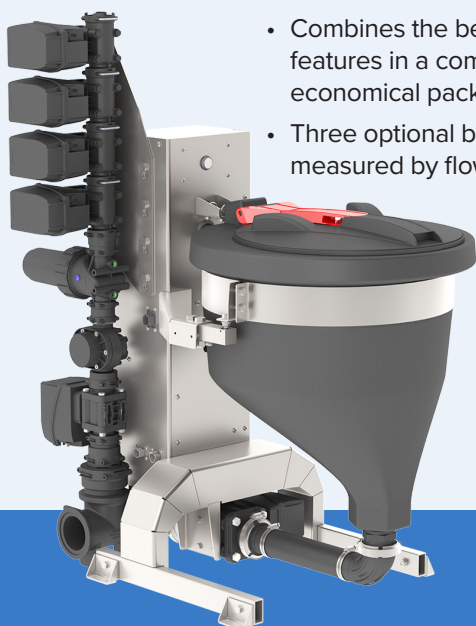

Liberty Ag Solutions is pleased to offer Mixmate, the ultimate blending system for commercial and self-applicators.

Mixmate Features:

- Fast, efficient, accurate, and modular
- Units are tailor-made to fit your operation's blending and mixing needs
- Automated recordkeeping saves time in the field and the office
- Mixmate is cloud connected for data backup and office access
- Factory calibrated scales and flowmeters rated at +/- 0.5% error
- Modular system components easily expanded with CAN Bus connections
- Spray tender trailer and stationary installations
- Combine weight and flow measurement options for speed and versatility
- Customers report loading in one fourth to one half the time

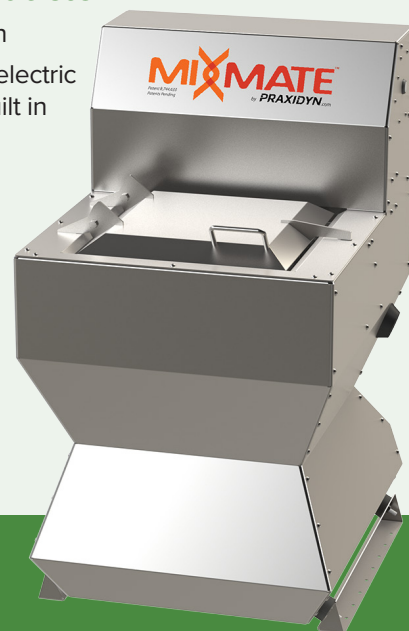

Mixmate Fusion Inductor

- Combines the best Mixmate features in a compact and economical package
- Three optional bulk inputs measured by flowmeter

Mixmate Pro Inductor

- All stainless design
- Enclosed hopper, electric pump control is built in

Both Mixmate Inductors feature:

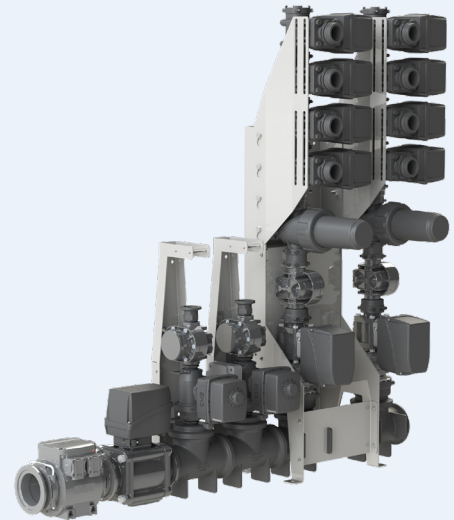

- Inductor measurements by weight
- Drain, weigh, record, and rinse from a jug ~ 12 seconds
- High flow rate rinsing system for dry products

Your new Mixmate is affordable!

Liberty Ag Solutions has programs to offset equipment costs when you buy farm inputs from us.

Mixmate Flow - Single and Stack

- Compare the Mixmate Flow Stack with other systems and you will find it has the advantages of speed, automated mixing, automated records, and often available at a better price
- Excellent companion product for the Handler, ChemBlade, or an Inductor
- Automated mixing and recordkeeping for bulk products
- Compact footprint to save trailer space
- **Example system shown:**
Automatic measurement and control of 8 bulks and water with up to 4 bulks measured simultaneously for speed

How Mixmate compares to other systems and other interesting facts

- Compare the Mixmate Flow to other systems. The Mixmate inductors add features that are better than any other system, at any price.
- The Mixmate inductors are the only systems capable of measuring directly from jugs with automated records and fast processing.
- The flowmeters or scales do not need to be calibrated.
- The Mixmate flow stack takes only 2.2 square feet of floor space.
- Each Mixmate System is optimized for speed, accuracy, and price.
- An automated mixing system boosts sprayer productivity.
- Existing plants can be modernized with Mixmate's control systems to give new capabilities and speed.
- A Mixmate system can easily be expanded at any time as so you are not locked into a fixed configuration.
- The closed system for bulk products limits worker exposure.
- Cloud connected for access from the office and data backup.

The benefits of buying a Mixmate

- Reduce loss of inventory
- Improve mixing speed
- Mitigate unskilled or seasonal mixing help
- Improve poor in-field recordkeeping
- Accomodate variable field conditions
- Gather better information from the field
- Consider automatic dispensing as a service you provide
- Data connections to your office and third-party farm management systems are possible
